

The efficacy of Fresh Cell Shampoo is based on the key active ingredients. Alongside human stem cell culture, these include:

- Panthenol to strengthen hair and retain moisture
- Niacinamide to boost hair growth
- Menthol to improve hair growth and prevent hair loss
- Green Tea Extract to prolong the growth phase and slow down the shedding phase of hair growth
- Centella Asiatic extract for its high antioxidant activity
- Olive Leaf extract to hydrate and moisturise hair follicles

Fresh Cell Shampoo is suitable for daily use and is available from the Spa and Aesthetics Clinic. R 1000 for 500ml.
