

This advanced, luxurious hydrating face cream from NeoStrata uses innovative technology to offer a visible improvement to key signs of photo-ageing and delivers a more resilient, brighter, and firmer-looking appearance.

Key actives include:

- Glycolic Acid + Gluconolactone – together these exfoliate existing age spots and improve skin smoothness
- Alpine Plant Extracts (Gigawhite) - brightens and evens out skin tone while improving luminosity
- Aminofil - provides visible volumising, plumping, and firming to the skin
